EU Youth Cinema: Green Deal is an innovative project dedicated to a sustainable Europe, presenting the European Union's green objectives in a film context. The project contributes to the appreciation and understanding of the EU Green Deal among young viewers and provides a platform for a multicultural approach to the Green Agenda. The project appeals particularly to young audiences as it addresses environmental challenges and promotes green activities and lifestyles.

The project will offer a programme of film and educational activities for young people and teachers over 24 months. Film screenings and streaming content will be accompanied by didactic material and thematically linked discussions, workshops and lectures.

The programme is based on a carefully selected collection of 25 European films, which will be screened in cinemas and via [online streaming content](#).

The project is implemented in Slovenia, Austria, Croatia, North Macedonia and Romania. All films will be subtitled in local languages and are suitable for young people aged 10 and over.
