The Association EPEKA, Soc. Ent., organises a screening of films in Celje as part of the **EU Youth Cinema: Green Deal** project.

EU Youth Cinema: Green Deal is an innovative project dedicated to a sustainable Europe, presenting the European Union's green objectives in a film context. The project contributes to the evaluation and understanding of **EU Green Deal** among young viewers and provides a platform for a multicultural approach to the Green Agenda. The project engages young audiences in particular, addressing environmental challenges and promoting green activities and lifestyles.

The project will offer young people and teachers a programme of film and educational activities over a period of 24 months. Film screenings and streaming content will be accompanied by didactic material and thematically linked discussions, workshops and lectures.

The programme is based on a carefully selected collection of 25 European films, which will be screened between May 2022 and May 2024 both in cinemas and via [online streaming platforms](#).

The project is implemented in Slovenia, Austria, Croatia, North Macedonia and Romania. All films will be subtitled in local languages and are suitable for young people aged 10 and over.
