EPEKA, Ltd. is organising a screening of films in Novo Mesto, in the framework of the **EU Youth Cinema: Green Deal (EUYC:GD 2024-2026)**.

EU Youth Cinema: Green Deal is an innovative project dedicated to a sustainable Europe, presenting the European Union's **green objectives** in a cinematic context, contributing to the appreciation and understanding of **the EU Green Deal**, mainly among young viewers, and providing a platform for a multicultural approach to the Green Agenda. We have successfully implemented the project in the period 2022-2024, involving almost 5,000 young people in film events in seven Slovenian cities and thousands more in the streaming part of the programme. We are continuing the project in 2024-2026, with a further 23 screenings across Slovenia and online engagement through www.euyc.green.

EUYC:GD 2024-2026 will be actively co-created by the same four partners who are already behind the success of the previous edition 2022-2024: EUYC:GD: the LET'S CEE Filmfestival Association and the communication consultancy agency Chapter 4 from Austria, the Scientific Research Association for Arts, Cultural and Educational Programmes and Technology EPEKA from Slovenia and the Go Green Skopje Association from North Macedonia. A new partner in the group is the Ukrainian NGO INNOVATION GENERATION, which will launch the Ukrainian edition of EUYC:GD.

Information about the film:

HOME

Country and year of production: France 2009

Directed by Yann Arthus-Bertrand

Length: 120 min.

HOME is both a celebration of the beauty of the Earth and a passionate call to protect it from destruction. Compelling and defiantly optimistic, the film travels to 54 countries and looks at the current state of the environment and the factors that will determine its future.
